

Riverside Patients Support Group

As you will be aware Riverside Medical Practice will be moving to new premises in Barker Street next year. Alleluia! We hear you all cry! This new facility will be able to facilitate improved access to services than the existing building, by not only being much bigger, brighter, with more up to date facilities , but also being able to bring in new services, which are at present being carried out at the Royal Shrewsbury Hospital and elsewhere, into the new Surgery, such as taking blood samples and other procedures currently not available with enhanced staffing numbers.

To enable us all to get a glimpse of the new premises there will be an open evening for ALL on the 12 September at 6.30pm at the RIVERSIDE SURGERY where the Architects and the Developers will show us the plans and we the Patients will be able to meet them and ask questions, to put our thoughts to the professionals on hand, including some of our General Practitioners and Management currently working out of our existing premises.

This is a great opportunity to not only learn about the new building, but also give input from the Patients' perspective. The Doctors and Management are extremely keen that we all are able to take part in this wonderful opportunity in creating a great new Surgery for all the Patients currently registered at the Riverside Practice and for future users of what promises to be a Patient and General Practitioners "*dream*" location.

This 'one off' window of opportunity is your chance to put your mark on the future of YOUR General Practitioners surgery, tailor made for us, the Patient.

I look forward to seeing you on the 12 September!!

Roger Briers
Chairman
